

INTRODUCING THE ZANACO STUDENT AND PROFESSIONAL WEB VISA DEBIT CARDS

Zanaco is pleased to welcome you to the world of this new and exciting innovation which puts you ahead of time. We know that time is always of the essence and you have other important things to attend to. To this effect, the Professional/Student.web account has been developed in collaboration with ACCA to help relieve you of some of the banking transactions that take up your time. With these cards, you can:

- Make prudently-planned savings for your subscription and Internet-based payments.
- Make cheap online subscription payments as opposed to expensive Draft payments.
- Save time in making real-time online payments instead of the long cumbersome process of Draft application and posting
- Reduce the risk of loss/ delayed subscription payment due to postage challenges by making payments yourself.
- Make on-line payment at your convenience any time of the day even in the comfort of your home.
- Make bank account transfers to colleagues, friends and most importantly, family using our **Internet Banking**.
- Check and print your Bank statement online using Internet Banking.

With great savings come great opportunities because we are moving away from transactions that demand your precious time to transactions that create time for you to plan/ study for your professional career.

Zanaco has other great products which we have naturally designed to suit the ever-changing electronic world. This has allowed us to set a minimum pace in the banking world in Zambia that is, to date, yet to be matched by other banks because we understand our market, our customers' needs and, most importantly, we understand you!
